Wolftech AD Technical Committee
March 19th, 2010, 3:00 PM, Page Hall - Room 21

Updates on:
- Changes to Account Provisioning/password change/password reset
- AD Recycle bin
- Mac Interoperability
- Certs
- New Wolfprint in WolfTech

Discussion of:
- Stuff we want to set domain wide (icmp echos, disable ddns)
- Implement new Default Domain Policies for XP/2003/Vista/2008
- Sysvol Replication dfs-r -> frs
- Automating Test Domain tear-down/recreation
- Monitoring for non-DC's
- Implementing Central Store
- Todo Items as by-product of AD Software WG
- List of automation "opportunities" to see if we can get "volunteers"

Whatever happened to:
- Computer->Remedy Queue lookup
- New Web Location for Docs/tools/etc
- DC Backups Location
- Central Celerra
- Better GPO Delegation
- WebDAV + DFS
