

Wolftech AD Technical Committee
July 27th, 2012, 3:00 PM, Page Hall - Room 21

Announcements:

- Governance - ITSAC-I is now meeting
- Is Membership of committee still appropriate? - Fine

Unfinished business:

- SCCM push from MSSQL->MySQL - not done
- Shadow Groups instead of WMI?
 - Populate shadow groups for all OS's
 - Do server groups
- "Receive Window Auto-Tuning Level" - more testing needed
- DC for EHPS - nothing
- Open MS call on DCDIAG errors - closed because of fiscal year end
- ADWS still giving grief - same
- FGPP for .admin accounts - Kevin doing some testing
- UID/GID Namespace for non-unity AD accounts - Talk to Libby
- GPO Modelling - nothing
- Finish moving AD Docs from Wolftech->AD site
- Wolftech rebuild
 - Docs->AD Website
 - certs still need work
 - in general, good to go
 - hp/drac schema extensions
- AD->Sysnews - Soon
- DRAC
- Domain-wide environmental variable for 32/64 program files to avoid doing item-level wmi targeting?

Review upcoming projects:

- <http://activedirectory.ncsu.edu/services/base-infrastructure/planned-changes/>
- <https://docs.google.com/a/ncsu.edu/document/d/12qwzOoqETHEcOjKXn3krdfEJ2qgGicNczDujboBpcZ0/edit>

Action Items:

- Review Project lists
- Create Shadow Groups by OS and filter the domain security policies only for the server one's - rest are for opt-in use
